

Development Committee Things to consider:

Eric put together a list of why we need more funds to grow:

- 1) Admin help (not volunteers)
 - a. Run Teacher trainings: signing up teachers, getting presenters, organizing locations
 - b. Organizing Fellows program
 - c. Leading the Fund Raising
- 2) Expand Teacher Trainings
- 3) Growing the Fellows- Training the trainers, maybe stipend to the Teachers training the teachers
- 4) Expanding Professional Development for Teachers
- 5) Growing the Resources for Teachers – more curriculum and quality curriculum
- 6) Continue working on the Standards for the State
- 7) More?

I met with Ryan Betz after the last Development Committee call (3/2/18). Below are some notes I captured from the meeting of things to consider going forward with fundraising and planning.

1. Talk about the problem. What are the challenges such as educating students to make smart financial decisions?
2. Get to the solution – what has been created today
 - a. Created FEPPP Vision statement -
 - b. Washington State Financial Education Learning Standards were adopted in September 2016
 - c. teacher trainings yearly: Advanced Materials, Novice, Masters
 - d. Created FEPPP Financial Fellows – 9 ESDs
3. What is our vision for the future – use strategic plans – many opportunities lie ahead with proper funding
4. We need to reach our goals in order to serve all students K-12 in the State of Washington
5. End Result – Students graduate with basic skills for their future.
